Frost Parkway Walking Tour

1 Tiffin Police & Fire All Patriots Memorial

In August 2011, Tiffin was selected to receive a piece of the World Trade Centers. Our police and fire departments raised over \$375,000 to for the memorial and it was dedicated on September 9, 2012.

Symbolism:

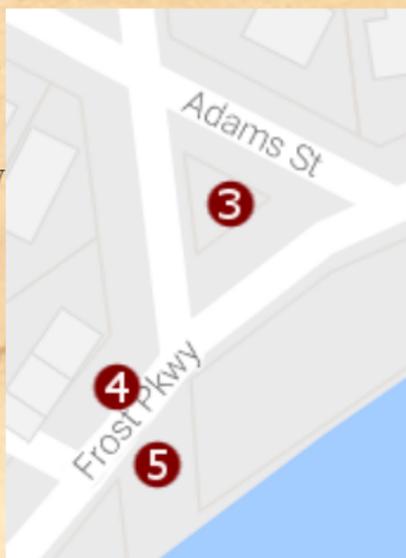

- The beam is set at a 9.11 degree angle
- “Never Forget”
- The number M-18 is the investigator’s ID number
- Behind the memorial, the Callery pear tree matches the Survivor Tree in NYC
- Shaped like the Pentagon, with the opening where it had been attacked
- The post to the rear of the monument is for Flight 93 and sits 40 inches high for each of the passengers and crew
- The dirt mound in the rear symbolizes the crash site of Flight 93
- Names of Tiffin police and fire who have fallen in the line of duty

2 Tiffin Veterans Memorial Bridge

This small monument is dedicated to all the brave men and women who served our country.

3 War of 1812 and Civil War Monument

The largest and most prominent monument in the area, it was dedicated on July 3, 1885. At first, it was planned for the Courthouse lawn, but the majority voted to place it along Frost Parkway & Water Street.

Tiffin Vietnam Memorial Monument

The Vietnam Memorial was dedicated on March 30, 2017 and is dedicated to local veterans and the 27 men who lost their lives.

The extra money raised for the memorial was placed in a fund to fix other war memorials in the area and create a college scholarship.

Those from Tiffin who lost their lives are remembered on their respective monument:

World War I Plaque
World War II Monument
Korean War Monument

4 Fort Ball Sycamore Tree

This tree sprouted in the 1800s and was near or within the site of the original Fort Ball. Fort Ball, completed in July of 1813, was erected on the west banks of the Sandusky River at a point, which today is the foot of Miami Street in Tiffin.

5 Indian Maiden

This statue was unveiled on October 11, 1926 and was built from funds donated by Meschech Frost. Before his death, he provided those funds for the beautification of the riverbank. Previously Water Street, it was renamed Frost Parkway in his honor.

The statue itself honors the Native Americans & soldiers present during the construction of Fort Ball during the War of 1812. It was cast and created by Leonard Crunelle, whose work has been featured nationwide. The statue was restored in 2014.

*You're gonna
love it here.*
