To Whom It May Concern:

In 2022, POET Bioprocessing-Fostoria along with several other area businesses and community members, joined together to participate in an Earth Day Community Clean Up. This effort was our way of helping to keep our community safe and clean, and to promote the importance of sustainability throughout the Fostoria area. Here at POET, we continue to recognize Earth Day as a holiday, living by our mantra of "Earth Day, Every Day," in hopes of raising awareness and working to protect Earth's natural resources for generations to come.

This year, we are excited to host another community clean up event and would love to invite our fellow local businesses and community members to join us in our efforts! Officially, Earth Day is Saturday April 22nd; however, we will host our clean up event on Monday April 24th at Noon. We ask that any community members and/or businesses that would like to get involved, meet at the Fostoria City Park (located on Vine Street) at 11:45 a.m. Our goal is to have everyone dedicate one hour of their time to help in our efforts to make the City of Fostoria, a clean and safe place for residents to enjoy. If time allows, we will move to other parks in the area after completing the City Park.

If you or your business would be interested in participating, please let me know by no later than Friday April 14th. POET will provide trash bags, gloves, and bottled water. We are excited to join together with other businesses in the community to help make an impact both locally and globally. If you have any questions, please do not hesitate to reach out!

Sincerely,

Megan N. James
