

# Upcoming July Webinars

## Precision OSHA Recordkeeping

Instructor  
**Brian Zchetti**

**June 30, 2020**  
11 a.m. - 12 p.m.

**REGISTER NOW**

This webinar will examine OSHA Recordkeeping forms, general recording criteria and specific situations that must be recorded on OSHA Injury & Illness Recordkeeping documents. Primary focus of the lecture will be determination of recordability to ensure accurate records are maintained. Session will also cover reporting requirements, electronic submission of records, and recordkeeping considerations for COVID-19 events.

## What does a Safety and Health Program Look Like?

Instructor  
**Lisa Houston**

**July 7, 2020**  
11 a.m. - 12 p.m.

**REGISTER NOW**

This course is designed to assist in developing a safety and health program. The course will identify topics to develop a plan of action to get you started or review what you currently have in place. Attendees will learn the essential elements of a safety policy statement, program elements, the roles and responsibilities of the employers and employees, and tips for establishing a training program.

## Safe Patient Handling: Is Your Facility Following the Guidelines?

Instructor  
**Audrey Hemlinger & Brian Chambers**

**July 14, 2020**  
11 a.m. - 12 p.m.

**REGISTER NOW**

Transferring and repositioning people in care facilities make long-term health related care one of the most dangerous jobs in the country. Has your facility eliminated manual transfers - if not, you may have higher operating costs while exposing your staff to severe injuries? High turnover, above average workers' comp rates, and overtime all can be a result of unsafe manual transfers. Additionally, your quality of care can suffer as manual transfers can result in more skin tears, falls, and broken bones to your patients and residents.

## Hearing Conservation Program

Instructor  
**Tom Kelly**

**July 21, 2020**  
11 a.m. - 12 p.m.

**REGISTER NOW**

According to the World Health Organization, Noise-induced hearing loss is the most common permanent and preventable occupational illness. This webinar will discuss occupational noise exposure, methods for evaluating and reducing workplace noise exposure, and the basic elements of a comprehensive hearing conservation program.

## Developing a Driver Safety Program

Instructor  
**Joe Koehl**

**July 28, 2020**  
11 a.m. - 2 p.m.

**REGISTER NOW**

This webinar will give attendees information needed to develop a Driver Safety Program to help reduce costly injuries, fatalities and property damage. Attendees will learn how to protect their organization's human and financial resources, to guard against company and personal liability associated with auto accidents, and tips on how to reduce the risk of life-altering injuries.
