## A Virtual Winter Solstice

**Monday, December 21<sup>st</sup>  
7:00 PM**

**Via Zoom**

*The winter solstice carries deep meaning in the Celtic tradition. It is a time when we turn inward away from the world. In the quiet, we have an opportunity to contemplate, be more aware of our dreams and visions. During the winter solstice, the rain or snow is often heavy. This intensity symbolizes a deep clearing. In the Celtic tradition, this time of year is also associated with rebirth, the dying of the old and the making way for the new. - Maureen Simon*
